In 1986 Dr. Nelson Now known as Desire' Dubounet Designed and Validated several Remedies for the Reckeweg Corporation of Germany

Dear Practitioner,

we are pleased to be in a position to present a line of 20 New Homoeopathic Specialities representing the latest developments in our research as an answer to so-called ailments of civilization.

By going through this booklet, you will find quite a number of remedies dealing with allergies, which pose a major problem today. Being exposed to a more and more polluted and contaminated environment, our organism will inevitably react with intolerances to various substances and then with allergies.

We now have come to the conclusion that in homoeopathy traditionally used herbs do not produce intended results as regards the treatment of allergic problems. However, carefully selected remedies – which are prepared strictly in accordance with the German Homoeopathic Pharmacopoeia – induce the required impulses into the system. They exert their aggressive influence by supporting the healing forces inherent in the organism without causing any side-effects. Therapeutic results are assured.
Dr. Reckeweg R 76
Asthma forte drops

Ingredients:
- Aconitum D3
- Ammi visnaga D2
- Conium majus D1
- Drosaaria D1
- Euphorbia cotinifolia D2
- Kalium iodatum D3
- Lobelia inflata D3
- Mentham D2
- Streptomyces D2
- Thunalia. Aquae pur.

Indications:
- Constitutional asthma-therapy.

Mode of action:
- A prolonged effect "Asthma Forte" has a favourable influence on the constitution of asthmatic dispossessed persons.
- Asthma: Stabbing pain in the chest, feeling of anxiety, tachypnoea, coughing and dry, sensation of constriction of chest.
- Ammi visnaga: Congestion disorders, cardiac affections.
- Conium majus: Nervousness, restlessness, restlessness, restlessness, restlessness.
- Drosaaria: Nervousness, restlessness, restlessness, restlessness.
- Streptomyces: Nervousness, restlessness, restlessness, restlessness.

Dosage:
- 3 times daily 20 drops in some water. In case of attack 10 drops every 5-10 minutes.

Remarks:
- In case of bronchial-cotact additional use of R86 is recommended, if dryness is affected use additionally R46. In case of cardiac-irritability R56 and angina pectoris R32, we recommend using R46 and Vita C19.

Dr. Reckeweg R 77
Anti-Smoking drops

Ingredients:
- Aconitum D3
- Ammi visnaga D2
- Conium majus D1
- Drosaaria D1
- Euphorbia cotinifolia D2
- Kalium iodatum D3
- Lobelia inflata D3
- Mentham D2
- Streptomyces D2
- Thunalia. Aquae pur.

Indications:
- Constitutional asthma-therapy.

Mode of action:
- The combination of the ingredients counteracts damages coming to a permanent supply of nicotine.

Dosage:
- 3 times daily 15-20 drops in some water.

Remarks:
- In case of nervousness due to withdrawal additional use of Vita C19 forte Tonic is recommended.
DR. RECKEWEG R 79
Heart-Capsules

Ingredients:
Allum aethericum D1, Dracaenae D1, Viscum album D2.

Indications:
Hypertension, attack of vertigo, dizziness, heartlessness, forgetfulness, for regulation of blood circulation, arteriosclerosis, hypertonia, anemia, pectoris.

Mode of action: Allum aetherium: Vasodilator; very useful in vertigo associated with arteriosclerosis, its healing action is known since long. The Bulgarian high-altitude seem to be connected to its regular ingestion as Allum, one of the active constituents of Allum aetherium, exerts a regeneration function and preventative effect on the cells. Allum aetherium increases the strength and intensifies the gastric secretion. This increases the cholestatic function of the liver and a disturbance in its functioning will be prevented from Allum aetherium.

Cochlea: Heart tonic, 3 enhances the functional heart capacity and prevents disordered actions of the heart if irritation regularly. Reduces blood pressure, strengthens the myocardium and drains the coronary vessels.

Viscum album: Reduces the blood viscosity, effects a capillary dilation and normalizes the heart rate causing such a decomposition. Reductions of diarrhoea and increased compulsion of blood with its often related headaches may be prevented.

Dosage: Swallow whole one capsule three times daily before meals.

Remarks: In case of angina pectoris: R2 and R3
Anxiety disorders: R67
Vertigo: R20
Suitable for diabetics!

DR. RECKEWEG R 80
Arnica-Oil

Ingredients:
Oleum arnicae D1, Oleum amicis infusionis 3, Oleum olivaeum D2, Gelsemium D2.

Indications: To be applied locally for the relief of muscular aches and stiff joints.

Mode of action: Oleum arnicae, Oleum amicis infusionis, Oleum olivaeum:
Effects from mechanical injury, act on the arterial system, regulating effect on blood circulation, eliminate stoppages. Painful joints. Bring inflammation under control.

Dosage: Topical application in the morning and evening is usually sufficient. In acute cases of pain and swelling several applications may be necessary.

Remarks:
In rheumatism and joints, osteoarthritis and osteochondritis: R10 and R30
In strauma: R71
Neuralgia in the head and occipital regions: R18
Rheumatism of shoulder and neck upper limbs: R46
Backpain with female: R55
Osteoarthrosis: R17
All kinds of wounds: R65
All kinds of pain: R55
Neuralgia in various areas: R70
Prevention of inflammations and infections: R94

DR. RECKEWEG R 81
Mukol - Antimalarial

Ingredients:

Indications: Headaches, nervous pains, myalgic pains, arthralgias.

Mode of action: Artemisia annua (Caoxuga) Vertigo caused by a variety of circumstances, ocular headache, myalgia, neuralgic pains.

Anemoneae decumbentiae (Daskalou): Nervous disorders, recurrent neuralgic pain, painful neuralgia.

Cicuta racemosa (Ciculi): Myalgic and muscular pains caused by the irritating fumes, pains from muscular strain, edema of gastric-Herpes trich, edema of the face and upper limbs, neuralgia.

Consolidae coelestis (Cipale): Edema of the face, nose, eyes, and ears, neuralgia and neuralgic pains especially in face and scalp.

Delphinii semper-vetris (Delfoenium): Headaches, tendency to convulsions.

Griega rhodora (Griega) Headaches, dropsy, nervous pains, headache.

Sparganum stellatum (Antimalaria): Headaches, neuralgia, painful menstrual disorder.

Dosage: Generally 3–4 times daily 15 drops in some water before meals, in severe cases every 1·5 to 3 hours 20–30 drops.

Remarks: In case of migraines R18.
In inflammation of the nerves of head and inflammation of the sinuses use R10 12–15 drops in some water 3–4 times daily.
In trigeminal and facial nerve neuralgia use R10.
DR. RECKEWEG R 83
Food-Allergy drops

Ingredients:
Adalimum 8.5, Coffea D6, D12, D30, Ficus carica D6, D12, D30, Fructus amomi D6, D12, D30, Hyoscyamus niger D6, D12, D30, Lispector D6, D12, D30, Nicotiana tabacum D6, D12, D30, Scrophularia nodosa D6, D12, D30, Solanum xanthocarpum D6, D12, D30, Solanum tuberosum D6, D12, D30.

Indications: Food allergy.

Mode of action:
Coffea, Ficus carica, Fructus amomi, Hyoscyamus niger, Scrophularia nodosa, Solanum xanthocarpum, Solanum tuberosum.

ACTIONS: The components provide antigenically desensitization therapy for food allergies.

Adalimum: For direct hormonal effect against allergic symptoms.

Heparin: Glutamine helps to normalize tissular effects.

Hyaluron: For antihistamine effects provides the best antiallergic response.

Dosage: 5 to 10 drops 3 times daily is normally recommended, but some cases of extreme sensitivity will react to this concentration. In these cases the drops should be put into a glass of water and then the patient should drink some of the water.

Reactions: In case of food allergy use R16, R37, R45, R49 is recommended.

Etiology: Stress and over-excitability or anything that overstimulates the sympathetic nervous system can drain its ability to counteract the immune defense of the parasympathetic nervous system. Extreme antibody response can develop in an unbalanced body.

DR. RECKEWEG R 84
Asthma-Allergy drops

Ingredients:
Adalimum 8.5, Coffea D6, D12, D30, Ficus carica D6, D12, D30, Foeniculum vulgare D6, D12, D30, Sesamum etoli graminis D6, D12, D30, Pulsatilla pratensis D6, D12, D30, Ribes nigrum D6, D12, D30, Pulmonaria officinalis D6, D12, D30.

Indications: Asthma allergy.

Mode of action:
Pulmonaria officinalis, Foeniculum vulgare, Ficus carica, Sesamum etoli graminis, Pulsatilla pratensis, Ribes nigrum, Pulmonaria officinalis. The above formula provides antigenic desensitization of the hyperemic phase.

ACTIONS: Allergy: Provides an anti-histamine effect for the body.

Dosage: 5 to 10 drops 3 times daily is normally recommended, but some cases of extreme sensitivity will react to this concentration. In these cases the drops should be put into a glass of water and then the patient should drink some of the water.

Reactions: In case of allergy use R16, R37, R45. R49 is recommended.

Etiology: Stress and over-excitability or anything that overstimulates the sympathetic nervous system can drain its ability to counteract the immune defense of the parasympathetic nervous system. Extreme antibody response can develop in an unbalanced body.

DR. RECKEWEG R 85
High blood pressure drops

Ingredients:

Indications: Blood pressure with systolic above 140 or diastolic over 90 (hypertension).

Mode of action:
Allium sativum: Lowers blood pressure.
Citrus medica: Controls diabetes effect.
Paeonia officinalis: Diuretic effect.
Glandula suprarenalis: Glutaronic degradation.
Kalium iodatum: Stimulates potassium absorption, improves circulation.
Kalium phosphoricum: Conduction of blood.
Magnoebaupura: Glutaronic stimulation.
Mentha piperita: Vascular hypertension.
Pulsatilla pratensis: Strong diuretic effect.
Valeriana: Calming effect.

Dosage: 10 drops 3 times daily is normally recommended, but as large an amount of water as the kidney can tolerate, 5–10 drops 3 times daily for more severe or chronic cases, supplement diet with potassium-rich foods or natural potassium supplements.

Reactions: In case of nervous heart types use R2 and R85, with kidney involvement R16 and R17, with protein deficiency in kidney R65, with regression of kidney R63 and R47, with structural dilatation R43 and R47, with varicos slabas R42 and in case of nervousness use Viva C 16, R22, R39, R44 C.
### DR. RECKEWEG R 89
**Essential Fatty Acids drops**

**Ingredients:**

**Indications:**
- Hypertension, premature hair loss, premature gray hair, weakness, too much cooked food, headaches.

**Mode of action:**
- Alfalfa, Lactuca sativa, Leukinum, Omethina bieneis: Anti-oxidant effects, topical for hair loss.
- Latakium: Well-known biologic cell salt for hair restoration.
- Pulsatilla: For topical treatment of premature balding.

**Dosage:**
- 3 times daily 30–60 drops after meals; once a day massage into bald area vigorously for 5 minutes.

**Remarks:**
- In case of tinnitus use R26, R40, R80, for senile dementia: R82, R87, R88, with skin disorders: R21, R23, glandular balance R19, R20, insomnia R31, constipation R27.

### DR. RECKEWEG R 90
**Diuretic Tonic**

**Ingredients:**
- Activated charcoal for medical use 5 mg, Bismuthum trituratus 300 mg, Carcenum o67,5 mg, Magnesia dulcis triturata 300 mg, Pepperum o67,5 mg, Dammeraria o1.

**Indications:**
- Heartburn, hyperacidity and hypersecretion (also during pregnancy), indigestion, flatulence, sensation of repletion, peristalsis, abdominal pain, flatulence, spasms, palpitations, scalding of mucous membranes.

**Mode of action:**
- Activated charcoal: Activated charcoal for medical use supports the absorption of numerous digestive products.
- Carcenum o/Dammeraria o: The essential components of carcenum and dammeraria o produce an antipassive-catalytic effect.
- Magnesia dulcis triturata: By combining Magnesiaum with Bismuthum, Dr. Reckeweg's R90 produces an excellent antispasmodic and antiperistaltic effect. Reactive hyperacidity can be reduced and the formation of a gallstone protects the mucous membrane.

**Dosage:**
- One tablet: 3 times daily before meals, or as required; tablet may be sucked or chewed and swallowed with some liquid.
- Between meals, colic is caused by the production and without significant.
- Do not use without medical advice over a longer period of time and in higher dosages.

**Remarks:**
- With acute and chronic gastritis, especially acute paratyphoid R5.
- In case of flatulence and constipation R7 and R32.

### DR. RECKEWEG R 91
**Sport-drops**

**Ingredients:**
- Aescin de人性化 citruscum D6, Aescin folium D6, Aescin ramusoc-
- Citruscum D6, Aesculina persea e cartho D6, Calcium saccharatum D6, Focus viviscus D4, Pollen D3, Vitamin B6, Zincum metallicum D6.

**Indications:**
- Poor oxygenation, weakness, fatigue. For sport use with any training program.

**Mode of action:**
- Aescin de人性化 citruscum (SNA) and Aescin ramusoc- citruscum (SNA) from great sources for reduction stimulation of oxygen transport.
- Aescin folium: For cellular energy use.
- Amethystus persea e cartho: Supplies B6 for oxygen intra-cellular use.
- Calcium saccharatum: B6 supplies a strong methyl donor effect. Essential in oxygen transport.
- Focus viviscus: Brain source.
- Pollen: Age oil of supporter of cells, and oxygenation of tissues.
- Vitamin B6: For cellular energy use.
- Zincum metallicum: For oxygen utilization in lung and pH-balancing.

**Dosage:**
- 10 drops 3 times a day for athletes in training; 2 times a day for ac-
- cuped effects in normal clients.

**Remarks:**
- With sport injuries: R55, sport injuries topically: R30, arsenic: R19, with obesity: R19, as a special tonic use 1-2 times 15 form.

**Etiology:**
- Sport conditioning requires proper oxygen transport and utilization. This formula increases cooperation to muscles and nerves. It can even reduce soreness for those just beginning an exercise program.

**Contraindications:**
- Severe pollen allergy.

### DR. RECKEWEG R 92
**Digestive Enzyme Formula**

**Ingredients:**
- Bitterkraut D3, Bismuthum D5, Cephorphylus aromatica D3, Carcenum-
- D6, Carcenum D6, Bismuthum D6, D12, D12, Paracyno D5, D5, D30, Parella, glucophrus D4, D6, D12, Stannum ac longum tinctura D3, Venturica D6, D12.

**Indications:**
- Gas, stomach, intestinal pain, stress involvement in digestion, hyperacidity, dry mouth, weak gastric, anorexia, indigestion, liver or pan-
- creatitis issues needing enzymatic help.

**Mode of action:**
- Bitterkraut, Cephorphylus aromaticum, Carcenum and Cordatum: Promote digestive secretions.
- Bismuthum: Enhances digestive support.
- Bismuthum: Provides bile and other emulsifying ingredients, but more for stimulation of proper liver function.
- Carcenum: For stimulation of proper stomach function.
- Bismuthum: Stabilizes and eliminates the first step of enzymatic digestion.
- Parella Gladiator: To stimulate and eliminates the first step of enzymatic digestion.
- Stannum ac longum vitamin B6 (vitamin B6): For digestive utilization.

**Dosage:**
- 30–60 drops after meals provides digestive stimulation and benefits any digestive disorder. This formula also reduces the "after dinner drink." Straight the formula is excellent for reliving the alimentary tract to allow normal digestion. As the condition improves use the formula later and later after meals, as 1 hour after meals is the perfect time for peristalsis and liver stimulation.

**Remarks:**
- In case of liver type RT for peristalsis please use R5 and for pancreatitis RT2 with barrel R3.

**Etiology:**
- Stress, toxicity, worry and lack of exercise all have detrimental effects on the digestive system. Diseases include dry mouth from weak parotid (salivary) gland, dyspepsia from viscerothoracic stomach atrophy, weak liver or pancreas secretions, diarrhea with emulsification or enzymatic release, weak small or large bowel mobility, absorption of nutrients, or some combination of the preceding.

Dosing large amounts of enzymes into the tract might help temporarily, but to correct the problem we recommend a suitable formula of low poten-
- tial grades including small amounts of enzymes, high potency pellitory leaves to stimulate and restore organ function, and finally, herbal formulas to help produce relief and to cure the digestive disorders. This formula is also a suitable formula after dinner drink to assist digestion.
DR. RECKEWEG R 93
Immune System Fortifier

Ingredients:
- Allium sativum D6, D12, Cicus D6, D12, Glanctole thyri D6, D12, Lymphomend D5, D12, Melodium D6, D12, Neod substaphylin D6, D12, Spanem D6, D12, Toraxis passerina D6, D12, Toraxis pharyngentin D6, D12, Zincon metol 6X, D12.

Indications: Disorders of immune system, weak immune system or allergic immune response.

Dosage:
- 10 drops 3 times daily, for children 5 drops 3 times daily.

Remarks: With pulmonary oases: R96, for scabies: R98, for depression: Vith C10, for allergy: R474, with calcium: R12, R34, with influenza: R6, with infections: R1, with fever: R2.

Etiology: Stress, worry, toxicity, increased radiation exposure, and decreased exercise are all having negative effects on our health. Imbalance in the immune system can result in disorders ranging from a hypothyroid immune system where the body can't defend against microorganisms to hyper immune system which makes the immune system over reactive to invaders as in allergic complaints. Some people even get both as one part of this immune system can over react and another under react. Recent revelations describe that the immune system is activated by mental stress before drug, worry, etc. Cancer is a result of a weak immune system which is overwhelmed by toxins. Lifestyle changes are essential for total immune system rebuilding.

DR. RECKEWEG R 94
Calendula Decoction

Ingredients: Calendula officinalis 94.

Indications:
- Used as a help to aid and to prevent infection.

Mode of action: Calendula: Specifically effective in lacerated wounds and bruising. In combination:

Dosage: Topical application in the morning and evening is usually sufficient. In acute cases of park and shaving gravel applications may be necessary. In cases of direct to minor cuts, scratches and burns, or aseptic bandage with iodine.

Remarks: R56 in acute injuries of all types. R30: ill affect from mechanical injury. Possible precipitation is a common effect in natural products. Safety and efficacy are not affected if this happens. Share before use.

DR. RECKEWEG R 95
Allergy Tonic

Ingredients:
- Acidum phosphoricum D3, Avena sativa D, Calcium phosphoricum D3, Cinchona D1, Cimicifuga D1, Glycyrrhiza D1, Magnesia phosphoricum D3, Medicago sativa D, Nux vormica D, Ethanol.

Indications: In conditions of anamnia, loss of appetite, convulsions, especially after exhausting fevers or surgical operations, pregnancy, loss of weight and in growing children.

Mode of action: Feeling of exhaustion and anxiety due to overwork and worry. Rapidly subside and general physical improvement in the patient very shortly appears.

Acidum phosphoricum: Physical and mental exhaustion, impetigo, pollutions, lack of concentration, apathy, sleeplessness during day time.

Avena sativa: Nervousness, mental overtaxation, sexual instability, in women the times before menstruation.

Calcium phosphoricum: Deficiency in calcium production and peroration of the growth of bones.

Cimicifuga: General tonic after loss of hormones and exhaustion, illnesses, impotency hereafter.

Cinnamomum: Convulsion, prevents all kinds of bleedings.

Glycyrrhiza: Its excellent robust root is due to Vitamin D and E. (Rhamnus and Rhododendron) as well as to its mineral ingredients with high content of vitamin A.

Hydrastis: General tonic in illness related weight reduction, exhaustion, hypervitaminosis.

Magnesia phosphoricum: Stabilization of the central nervous system, pains and cramps in nerves and muscles, neurasthenia.

Medicago sativa (Alfalfa): Contains amino acids, which are indispensable for the bodily structure.

Nux vormica: Stabilization of cramps in nerves.

Dosage: Adults one tablespoon, children one teaspoonful 3 times daily before meals.

List of Ingredients
